

## Catholic Mission School Immersions

A Catholic Mission Immersion is an educational program designed to provide students the experience of immersing themselves for 8-10 days in a local community in Thailand, to gain an understanding and appreciation of cultures different from their own, viewed from a faith perspective. The students will spend time 'being with' the local people in Thailand in their daily routines. The experience is designed to 'be with' others, listening and learning. We do not visit in order to help or 'do for' others. The experience is not designed around service work in the community. The actual day-to-day itinerary is developed in partnership with the hosting community. Catholic Mission commits to not over-burden local people with our stay. This is not merely sightseeing or tourism. It is an educational, life changing, self- development program founded on Catholic principles.
